

STARTER

WEANED

DEVELOPING

GROWING

CALF COMMAND

For starting dairy calves. Baby calves on milk and until eating ~5lbs everyday. Feed small, fresh amounts until calf cleans feeder then increase amount

KEY FEATURES:

- A palatable textured calf starter feed
- Corn and soybean meal based protein pellet
- Prevention of coccidiosis

SUCCESS 1

For growing young dairy heifer. Full feed for weaned calves. Contains a large amount of cottonseed hulls creating a very fibrous feed, great for rumen development.

KEY FEATURES:

- Grain mix for growing dairy heifers
- Average daily gains of 1.7lbs/day
- Weaned calf feed - Full feed

16% DEVELOPER

Great general feed for heifers, dry cows, and steers. Contains a mineral package that will provide adequate growth when fed properly.

KEY FEATURES:

- Increases rate of weight gain
- Versatile feed option
- Ideal for growing heifers, dry cows, & steers

38% DAIRY PELLETT

Our 38% dairy pellet is versatile. Contains a mineral package that will optimize performance when fed properly.

KEY FEATURES:

- Prevents and controls coccidiosis
- Increases energy & maintains body health
- Versatile feed option
- Ideal for growing heifers and dry cows
